WILSON CENTRAL SCHOOL DISTRICT CODE OF CONDUCT

INTRODUCTION

The Wilson District Board of Education recognizes the importance of policies regarding conduct on and around school grounds. To ensure a safe, fair, and appropriate education, the Board is committed to practices that will promote an orderly school environment. Students will obtain a quality education without excessive disruption and interference. Students, staff, parents, and all visitors will be expected to act responsibly to minimize any degradation of this objective.

This Code of Conduct will be the foundation for behavioral expectations on school property and at school-sponsored functions. The principles of this Code will be based on honesty, integrity, respect, character, citizenship, and civility. Compliance with these virtues will create a positive learning exchange that is both safe and effective. Deviations from these expectations may result in disciplinary action when the behavior has been determined to be unacceptable.

The Board adopts this Code of Conduct in the spirit of providing the best possible surroundings for children to learn, grow and develop. A review and analysis of this Code will be done on an "as-needed" basis to ensure that this document is adapted to new district needs and concerns.

Unless otherwise indicated, the Code of Conduct applies to all students, school personnel, parents, and other visitors when on school property or attending a school function.

- 8) Intentionally damaging or destroying District property, the personal property of a student, teacher, volunteer, contractor, vendor, administrator, other District employee or any person lawfully on District property, or at a District function including but not limited to graffiti or arson.

- 9) Communication by any means, including oral, written, or electronic (such as through the Internet, email, or texting) off school property, where the content of such communication (a) can reasonably be interpreted as a threat to commit an act of violence on school property; or, (b) results in material or substantial disruption to the educational environment.

E. Engage in Any Conduct That Endangers the Safety, Morals, Health or Welfare of Others

Examples of such conduct include, but are not limited to:

- 1) Lying, deceiving, or giving false information to school personnel.
- 2) Stealing District property or the property of other students, school personnel, or any other person lawfully on school property or while attending a school function.
- 3) Defamation, which includes making false or unprivileged statements or representations about an individual or identifiable group of individuals that harm the reputation of the person or the identifiable group by demeaning them. This can include posting or publishing video, audio recordings or pictures (written material, cell phones, Internet, YouTube, etc.).
- 4) Discrimination or bullying, based on a person's actual or perceived race, age, sexual orientation, use of a recognized guide dog, hearing dog or service dog, color, creed, national origin, ethnic group, religion, religious practice, sex, sexual orientation, gender or gender identity, marital or veteran status, use of a recognized guide dog, hearing dog or service dog, or disability as a basis for treating another in a negative manner on school property or at a school function.
- 5) Harassment, the creation of a hostile environment by conduct or by verbal threats, intimidation, or abuse that has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional, or physical wellbeing based on a person's actual or perceived race, color, weight, national origin, political affiliation, ethnic group, religion, religious practice, marital or veteran status, use of a recognized guide dog, hearing dog or service dog, disability, sexual orientation, gender or sex.
- 6) Bullying and intimidation, which includes engaging in actions or statements that put an individual in fear of bodily harm and/or emotional discomfort; for example, "play" fighting, extortion of money, overt teasing, etc.
- 7) "Internet bullying" (also referred to as "cyber bullying") including the use of instant messaging, email, websites, chat rooms, text messaging, or by any other electronic means, when such use interferes with the operation of the school; or infringes upon the general health, safety, and welfare of students or employees.
- 8) Sexual harassment, which includes unwelcome sexual advances, requests for sexual favors, taking, sending, or receiving sexually explicit videos, pictures or auditory recordings, and other verbal or physical conduct or communication of a sexual nature.
- 9) Displaying signs of gang affiliation or engaging in gang-related behaviors that are observed to increase the level of conflict or violent behavior.
- 10) Hazing, which includes any intentional or reckless act directed against another for the purpose of initiation into, affiliating with, or maintaining membership in any District or school-sponsored activity, organization, club, or team.
- 11) Selling, using, possessing, or distributing obscene material.
- 12) Possessing, consuming, selling, attempting to sell, distributing or exchanging alcoholic beverages, tobacco, tobacco products or illegal and/or controlled substances, counterfeit

and designer drugs, or paraphernalia for use of such drugs or be under the influence of any such substances on school property or at a school function. "Illegal substances" include, but are not limited to, inhalants, marijuana, synthetic cannabinoids, cocaine, LSD, PCP, amphetamines, heroin, steroids, look-alike drugs, drug paraphernalia, and any substances commonly referred to as "designer drugs."

- 13) Inappropriately possessing, using, sharing, selling, attempting to sell, distributing, or exchanging prescription or over-the-counter drugs.

- 17) Inappropriate touching and/or indecent exposure.
- 18) Initiating or reporting warning of fire or other catastrophe without valid cause, misusing 911, or inappropriately discharging a fire extinguisher.
- 19) Violating gender privacy when using school restroom facilities.

F. Engage in Misconduct While on a School Bus

It is crucial for students to behave appropriately while riding on District buses to ensure their safety and that of other passengers and to avoid distracting the bus driver. Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Excessive noise, pushing, shoving, fighting, harassment, and discrimination/bullying will not be tolerated.

G. Engage in Any Form of Academic Misconduct

Examples of academic misconduct include, but are not limited to:

- 1) Plagiarism.
- 2) Cheating.
- 3) Altering records.
- 4) Accessing other users' email accounts or network storage accounts and/or attempting to read, delete, copy, modify, and interfere with the transferring and receiving of electronic communications.
- 5) Violation of the District Acceptable Use Policy for technology.
- 6) Assisting another student in any of the above actions.

REPORTING VIOLATIONS

All students are expected to promptly report violations of the Code of Conduct to a teacher, school counselor, the building principal, or his or her designee. Any student observing a student possessing a weapon, alcohol, or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee, or the Superintendent.

All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn, impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

DISCIPLINARY PENALTIES, PROCEDURES, AND REFERRALS

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. As a general rule, discipline will be progressive. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- 1) The student's age.
- 2) The nature of the offense and the circumstances which led to the offense.
- 3) The student's prior disciplinary record.
- 4) The effectiveness of other forms of discipline.
- 5) Information from parents, teachers, and/or others, as appropriate.
- 6) Other extenuating circumstances.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education. Discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability.

Penalties

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

Penalty	Authorized to Impose Penalty
Oral warning	Any member of the District staff, and other authorized personnel
Written referrals	Any member of the District staff and other authorized personnel
Written notification to the parent	Any member of the District Staff and other authorized personnel
Detention	Teachers, administrators
Suspension from transportation	Director of transportation, administrators
Suspension from athletic participation	Coaches, administrators
Suspension from social or extracurricular activities	Activity director, administrators
Suspension of other privileges	Administrators
In-school suspension	Administrators
Removal from classroom by teacher	Teachers, principal/designee
Short-term (five days or less) suspension from school	Principal, Superintendent, Board of Education
Long-term (more than five days) suspension from school	Superintendent, Board of Education
Permanent suspension from school	Superintendent, Board of Education

Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. Students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning, or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1. Detention - Teachers, principals, and the Superintendent may use detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.
2. Suspension from transportation - If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the Superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extra-curricular activities, and other privileges - A student subjected to a suspension from athletic participation, extra-curricular activities, or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4. In-school suspension - The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals/designees and the Superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in "in-school suspension."

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher Disciplinary Removal of Disruptive Students - A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in a supervised alternative setting. Many time-honored classroom management techniques do not constitute disciplinary removals for purposes of this Code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to three days. The removal from class applies to the class of the removing teacher only.

The procedural requirements for a formal removal by a teacher of a student are:

a. If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be formally removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours.

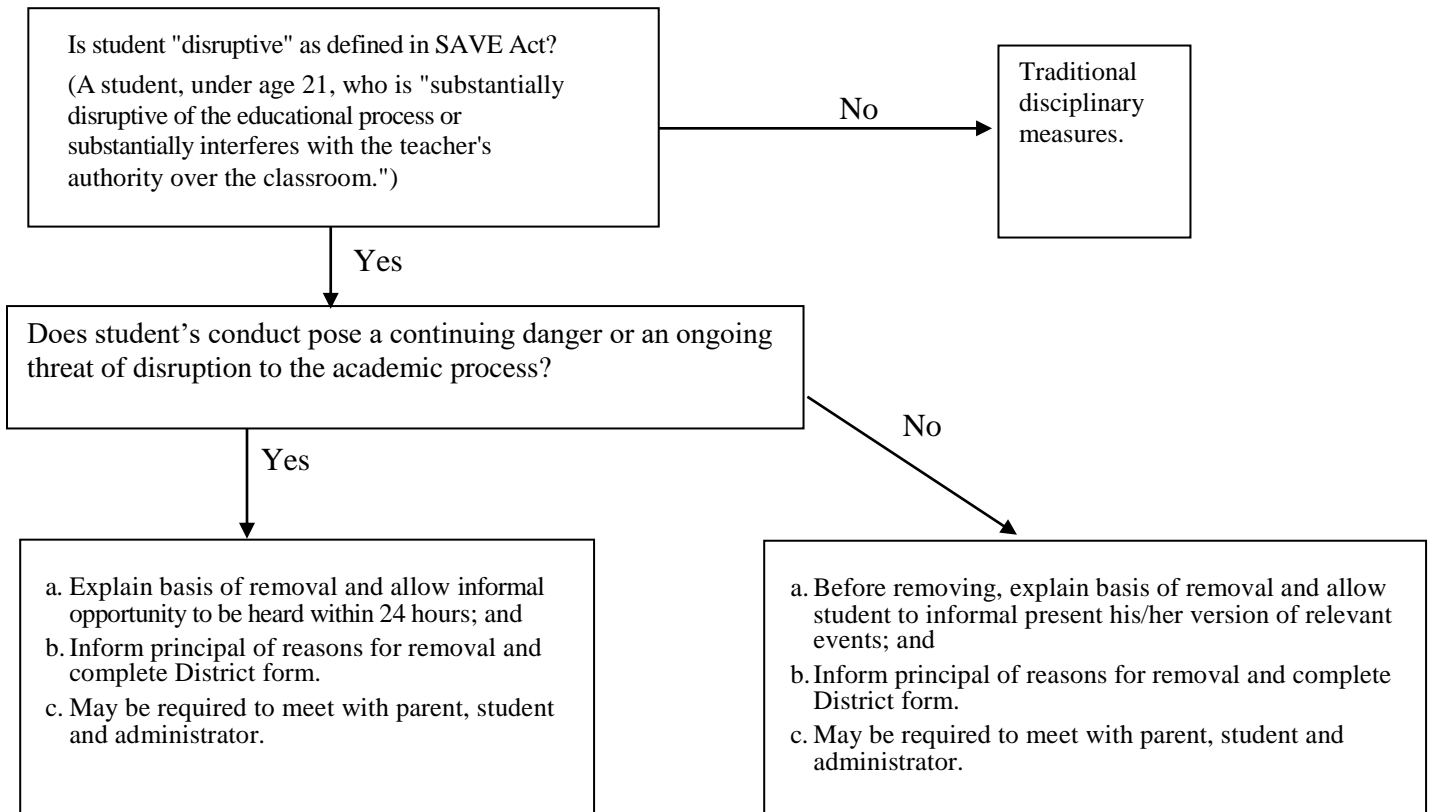

b. The teacher must complete a District form for a formal removal by a teacher and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the formal removal and to present the form for a formal removal by a teacher. If the principal or designee is not available by the end of the same day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

- c. Within 24-hours after the student's formal removal by a teacher, the principal or another District administrator designated by the principal must notify the student's parents, in writing, that the student has been formally removed from the class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the formal removal.
- d. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's formal removal at the last known address of the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.
- e. The principal may require the teacher who ordered the formal removal to attend the informal conference.
- f. If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was formally removed and give the student and the student's parents a chance to present the student's version of the relevant events. The principal/designee will schedule the informal meeting to be held within 48 hours of the student's formal removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.
- g. The principal or the principal's designee may overturn the formal removal of the student from class if any one of the following is found:
 - i. The charges against the student are not supported by substantial evidence.
 - ii. The student's formal removal is otherwise in violation of law, including the District's Code of Conduct.
 - iii. The conduct warrants suspension from school pursuant to Education Law Section 3214 and a suspension will be imposed.
- h. The principal or his or her designee may overturn a formal removal by a teacher at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student formally removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of the formal removal expires, whichever is less.
- i. Any disruptive student who is formally removed from the classroom by the classroom teacher shall be offered continued educational programming and activities by a certified teacher until the student is permitted to return to the classroom.
- j. Each teacher must keep a complete log (on a District provided form) for all cases of formal removal of students from his or her class. The principal must keep a log of all formal removals of students from class.
- k. Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's right under state or federal

law or regulation.

Refer to the flow chart version of these procedures, as follows:

REMOVAL OF DISRUPTIVE STUDENT BY TEACHER

PRINCIPAL'S RESPONSIBILITIES TRIGGERED BY TEACHER REMOVAL

- (1) Within 24 hours of removal principal/designee must inform parent of reasons for removal.
- (2) On request, student/parent must be given an opportunity to discuss reasons with principal.
- (3) If student denies the charges, student/parent must be given explanation of basis for removal and an opportunity to present his/her version. This must take place within 48 hours of removal.
- (4) Principal must decide, by the close of the business on the day following the opportunity for an informal hearing, whether the discipline will be overturned. Principal may only set aside discipline if:
 - The charges against the student are not supported by substantial evidence.
 - The student's removal is in violation of law.
 - The conduct warrants suspension and a suspension will be imposed.

Suspension from school

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, morals, health, or welfare of others.

The Board retains its authority to suspend students but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the Superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the Superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases, a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The Superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a) Short-term (5 days or less) suspension from school

When the Superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent within thirty (30) calendar days unless they can show extraordinary circumstances precluding them from doing so.

The Superintendent shall issue a written decision regarding the appeal within twenty-one (21) calendar days after receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board of Education with the District Clerk within thirty (30) calendar days of the date of the Superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b) Long-term (more than 5 days) suspension from school

When the Superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing, the student shall have the right to be represented by counsel, the right to question witnesses against him or her, and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof. To the maximum extent allowable by law, a parent or student may voluntarily, knowingly, and intelligently waive the right to a Superintendent's hearing and/or other due process requirements. (Refer to Appendix B and C)

An appeal of the decision of the Superintendent of Schools may be made to the Board of Education, which will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within thirty (30) calendar days of the date of the Superintendent's decision unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days after the receipt of the Superintendent's decision.

c) Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel, or any other person lawfully on school property or attending a school function.

Minimum Periods of Suspension

1. Students who bring a firearm to school (as defined by the Gun-Free Schools Act 18 USC Section 921)

Any student found guilty of bringing a firearm onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law Section 3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- The student's age.
- The student's grade in school.
- The student's prior disciplinary record.
- The Superintendent's belief that other forms of discipline may be more effective.
- Input from parents, teachers, and/or others.
- Extenuating circumstances.

2. A student with a disability may be suspended only in accordance with the requirements of state and federal law.

Any student, who is found to have committed a violent act or brings a weapon to school other than a firearm as defined by the Gun-Free School Act, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a firearm. A student with a disability may be suspended only in accordance with the requirements of state and federal law.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom

Any student, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be subject to suspension from school for at least five days. For purposes of this Code of Conduct, "repeatedly substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by the teacher(s) pursuant to Education Law Sections 3214(3a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a firearm. A student with a disability may be suspended only in accordance with the requirements of state and federal law.

Referrals

1. Counseling

The Counseling Office and/or the building principal shall handle all referrals of students to counseling and/or other services.

2. PINS Petition

The District may file a Person In Need of Supervision (PINS) petition in Family Court on any student under the age of 18 upon any basis as authorized under the Family Court Act. Such authorized bases include any of the following:

- a) Being habitually truant and not attending school as required by part one of Article 65 of the Education Law;
- b) Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient and beyond the lawful control of the school;
- c) Violating the provisions of section 230.00 of the penal law; or
- d) Appearing to be a sexually exploited child as defined in paragraph (a), (c) or (d) of subdivision one of section four hundred forty-seven-a of the social services law, but only if the child consents to the filing of a petition under this article.

ALTERNATIVE INSTRUCTION/CONTINUOUS EDUCATIONAL PROGRAMMING

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law Section 3214, the District will take immediate steps to provide alternative means of instruction for the student.

DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

Authorized Suspensions or Removals of Students with Disabilities

1. For purposes of this section of the Code of Conduct, the following definitions apply.
 - A "suspension" means a suspension pursuant to Education Law Section 3214.
 - A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
 - An "IAES" means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:

a. The Board, the District (BOCES) Superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.

b. The Superintendent may order the placement of a student with a disability into an IAES, another setting, or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior. The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.

c. The Superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

i. "Weapon" means the same as "dangerous weapon" under 18 U.S.C. Section 930(g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except... [for] a pocket knife with a blade less than 2 1/2 inches in length.

ii. "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

iii. "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed healthcare professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- a. for more than 10 consecutive school days; or
- b. for more than 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
- c. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Special Rules Regarding the Suspension or Removal of Students with Disabilities

1. The District's Committee on Special Education shall:
 - a. Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school District shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs, or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.

2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of the misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the School District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

a. The Superintendent, building principal, or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.

b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, the District either:

i. conducted an individual evaluation and determined that the student is not a student with a disability, or

ii. determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such a non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

3. The District shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs, or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.

5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this Code.

6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement unless the CSE has determined that the behavior is not a manifestation of the student's disability.7. During any period of suspension or removal, including placement in a JABS, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this Code.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

Expedited Due Process Hearings

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this Code, if:
 - a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintains that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintains that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - i. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until the expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.
 - ii. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

Referral to law enforcement and judicial authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

CORPORAL PUNISHMENT

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee, or agent of this school district.

However, if alternative procedures and methods which would not involve physical force do not work, the use of reasonable physical force is not prohibited for the following reasons:

1. Self-protection.
2. Protection of others.
3. Protection of property, or
4. Restraining/removing a disruptive student.

Whenever a school employee uses physical force against a student, the employee shall, within the same school day, make a report to the Superintendent of Schools describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Wilson Central School authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

STUDENT SEARCHES AND INTERROGATIONS

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals, and the school nurse to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official

has a legitimate reason for the very limited search.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the District Code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practical, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

Student Lockers, Desks, and other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

Intrusive Searches

More intrusive searches may occur in accordance with law and Board policy.

Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age, and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Persons conducting search and his or her title(s) and position(s).
7. Witnesses, if any, to the search.
8. Time and location of the search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner, and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s) until the items are properly disposed of or turned over to the police.

Police Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interrogate or search students in schools or at school functions, or to use school facilities in connection

with police work. Police officials may enter school property or a school function to interrogate or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials.

Before police officials are permitted to interrogate or search any student, the building principal or his or her designee shall first try to notify the student's parent to allow the parent the opportunity to be present during the police interrogation or search. If the student's parent cannot be contacted prior to the police interrogation or search, the interrogation or search shall not be conducted. The principal or designee will also be present during any police interrogation or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other District medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school District official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

VISITORS TO THE SCHOOLS

The Board of Education, administrators, and teachers encourage parents/guardians, community members, and other appropriate individuals to visit the Wilson schools to observe the work of students, teachers, and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.

5. Any unauthorized person on school property will be reported to the principal or his/her designee. Any unauthorized person on school property will be asked to leave. The police may be called if the situation warrants it.
6. Before a non-school person may take a child from the building, the visitor must be recognized by the building principal or his/her designee as one having the legal right to take the child.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.

PUBLIC CONDUCT ON SCHOOL PROPERTY

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, "public" shall mean all persons when on school property or attending a school function including students, teachers, and District personnel.

The restrictions on public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

The building principal or his or her designee shall be responsible for enforcing the conduct required by this Code.

When the building principal or his/her designee sees an individual engaged in prohibited conduct, that does not pose any immediate threat of injury to persons or property, it will be the responsibility of the building principal or his or her designee to inform the individual that the conduct is prohibited and to try to persuade the individual to stop. The Board of Education, via a committee of representative stakeholders, will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the code's provisions have been and whether the Code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the Code and the District's response to Code of Conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

APPENDIX D

Student Acceptable Use Policy for Technology

The Board will provide access to various computerized information resources through the District's computer system ("DCS" hereafter) consisting of software, hardware, computer networks, and electronic communications systems. This may include access to email, online services, and the Internet. It may include the opportunity for some students to have independent access to the DCS from their homes or other remote locations. All use of the DCS, including independent use off school premises, will be subject to this policy. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the District.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

This policy is intended to establish general guidelines for the acceptable student use of the DCS and also to give students and parents or guardians notice that student use of the DCS will provide student access to external computer networks not controlled by the District. The District cannot screen or review all of the available content or materials on these external computer networks, thus some of the available content or materials on these external networks may be deemed unsuitable for student use or access by parents or guardians.

It is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises, and/or with a student's own personal technology or electronic device on school grounds or at school events. Parents and guardians should establish boundaries and standards for the appropriate and acceptable use of technology and communicate these boundaries and standards to their children. The acceptable use standards outlined in this policy apply to student use of technology via the DCS or any other electronic media or communications, including by means of a student's own personal technology or electronic device on school grounds or at school events.

Standards of Acceptable Use

Generally, the same standards of acceptable student conduct which apply to any school activity will apply to the use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage.

District students must also adhere to the laws, policies, and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

Students who engage in unacceptable use of the DCS may lose access in accordance with applicable due process procedures and may be subject to further discipline in accordance with the District Code of Conduct.

Student data files and other electronic storage areas are considered District property subject to control and inspection. The District Technology Administrator may access all files and communications without prior notice to ensure system integrity and that users are complying with the requirements of this policy. Students should NOT expect that information stored on the DCS will be private.

Notification

The District's AUP will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.

APPENDIX E

Staff Acceptable Use Policy for Technology

The Board will provide staff with access to various computerized information resources through the District's computer system (DCS) consisting of software, hardware, computer networks, wireless networks/access, and electronic communication systems. This may include access to electronic mail, online services, and the Internet. It may also include the opportunity for staff to have independent access to the DCS from their home or other remote locations, and/or to access the DCS from their personal devices. All use of the DCS and the wireless network, including independent use off school premises and use on personal devices, will be subject to this policy and any accompanying regulations.

The Board encourages staff to make use of the DCS to explore educational topics, conduct research, and contact others in the educational world. The Board anticipates that staff access to various computerized information resources will both expedite and enhance the performance of tasks associated with their positions and assignments. To that end, the Board directs the Superintendent or designee(s) to provide staff with training in the proper and effective use of the DCS.

Staff use of the DCS is conditioned upon electronic agreement by the staff member that use of the DCS will conform to the requirements of this policy and any regulations adopted to ensure acceptable use of the DCS. These agreements will be kept on file electronically. A copy of the Staff Acceptable Use Policy will be available in the main office and on the website.

Generally, the same standards of acceptable staff conduct which apply to any aspect of job performance will apply to the use of the DCS. Employees are expected to communicate in a professional manner consistent with applicable District policies and regulations governing the behavior of school staff. Electronic mail will not be utilized to share confidential information about students or other employees unless the email is marked confidential.

Access to confidential data is a privilege afforded to District employees in the performance of their duties. Safeguarding this data is a District responsibility that the Board takes very seriously. Consequently, District employment does not automatically guarantee the initial or ongoing ability to use mobile or personal devices to access the DCS and the information it may contain.

This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate staff conduct and use as well as prescribed behavior.

District staff will also adhere to the laws, policies, and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and rights of privacy protected by federal and state law.

Staff members who engage in unacceptable use may lose access to the DCS and may be subject to further discipline under the law and in accordance with applicable collective bargaining agreements. Legal action may be initiated against a staff member who willfully, maliciously, or unlawfully damages or destroys District property.

Social Media Use by Employees

The District recognizes the value of teacher and professional staff inquiry, investigation, and communication using new technology tools to enhance student learning experiences. The District also

realizes its obligations to teach and ensure responsible and safe use of these new technologies. Social media, including social networking sites (SNS), have great potential to connect people around the globe and enhance communication. Therefore, the Board encourages the use of District-approved social media tools and the exploration of new and emerging technologies to supplement the range of communication and educational services.

Public social media networks or SNS are defined to include: websites, weblogs (blogs), wikis, social networks, online forums, virtual worlds, video sites, and any other social media generally available to the District community which do not fall within the District's electronic technology network (e.g., Facebook, MySpace, Twitter, LinkedIn, Flickr, Vine, Instagram, Snapchat, etc.). The definition of District approved password-protected social media tools are those that fall within the District's electronic technology network or which the District has approved for educational use. Within these internal forums, the District has greater authority and ability to protect minors from inappropriate content and can limit public access.

The use of social media (whether public or internal) can generally be defined as Official District Use, Professional/Instructional Use, and Personal Use. In addition, employees are encouraged to maintain the highest levels of professionalism when communicating, whether using District devices or their own personal devices, in their professional capacity as educators. They have a responsibility to address inappropriate behavior or activity on these networks, including requirements for mandated reporting and compliance with all applicable District policies and regulations.

Confidentiality, Private Information, and Privacy Rights

Confidential or private data, including, but not limited to, protected student records, employee personal identifying information, and District assessment data, will only be loaded, stored, or transferred to District-owned devices which have encryption and/or password protection. This restriction, designed to ensure data security, encompasses all computers and devices within the DCS, any mobile devices, including flash or key drives, and any devices that access the DCS from remote locations. Staff will not use email to transmit confidential files in order to work at home or another location unless they are marked confidential.

In addition, staff will not leave any devices unattended with confidential information visible. All devices must be locked down while the staff member steps away from the device, and settings enabled to freeze and lock after a set period of inactivity.

Staff data files and electronic storage areas will remain District property, subject to District control and inspection. The Technology Administrator may access all staff data files and communications without prior notice to ensure system integrity and that users are complying with requirements of this policy and any accompanying regulations. Staff should not expect that information stored on the DCS will be private.
